

CURRENT MODELS ONLY

EARLY MODELS ONLY

SERVICE NOTES:

A - Follow sequential diagram below for correct tracking of cable.

B - See diagram below for correct chain selection.

C - For use with outboard elevating screws only.

D - When replacement becomes necessary for early style sprocket w/bushing (Ref. No. 508) or drive shaft (Ref. No. 510A) a new style drive shaft (Ref. No. 510) (shaft and sprocket incorporated as one piece) will be shipped. Customer MUST discard stop collar (Ref. No. 502), set screw (Ref. No. 503), washer (Ref. No. 504), set screw (Ref. No. 505), spring (Ref. No. 506), and ball (Ref. No. 507) for proper machine operation, as the new style drive shaft no longer requires the use of these parts.

This parts list is provided to aid in obtaining service parts. Operational and maintenance information is contained in a separate owner's manual which is available through your local service outlet.
