SERVICE PARTS LIST

BULLETIN NO. 54-40-2601

SPECIFY CATALOG NO. AND SERIAL NO. WHEN ORDERING PARTS

REVISED BULLETIN 54-40-2600 | DATE Aug. 2014

CORDLESS 18V COMPACT BAND SAW

CATALOG NO. 2629-20 | STARTING SERIAL NO. **C14B**

WIRING INSTRUCTION **SEE PAGES 5, 6, 7 & 8**

00 / 0 **EXAMPLE:** Component Parts (Small #) Are Included When Ordering The Assembly (Large #).

118	14-46-2016	Brush Card Assembly	(1)

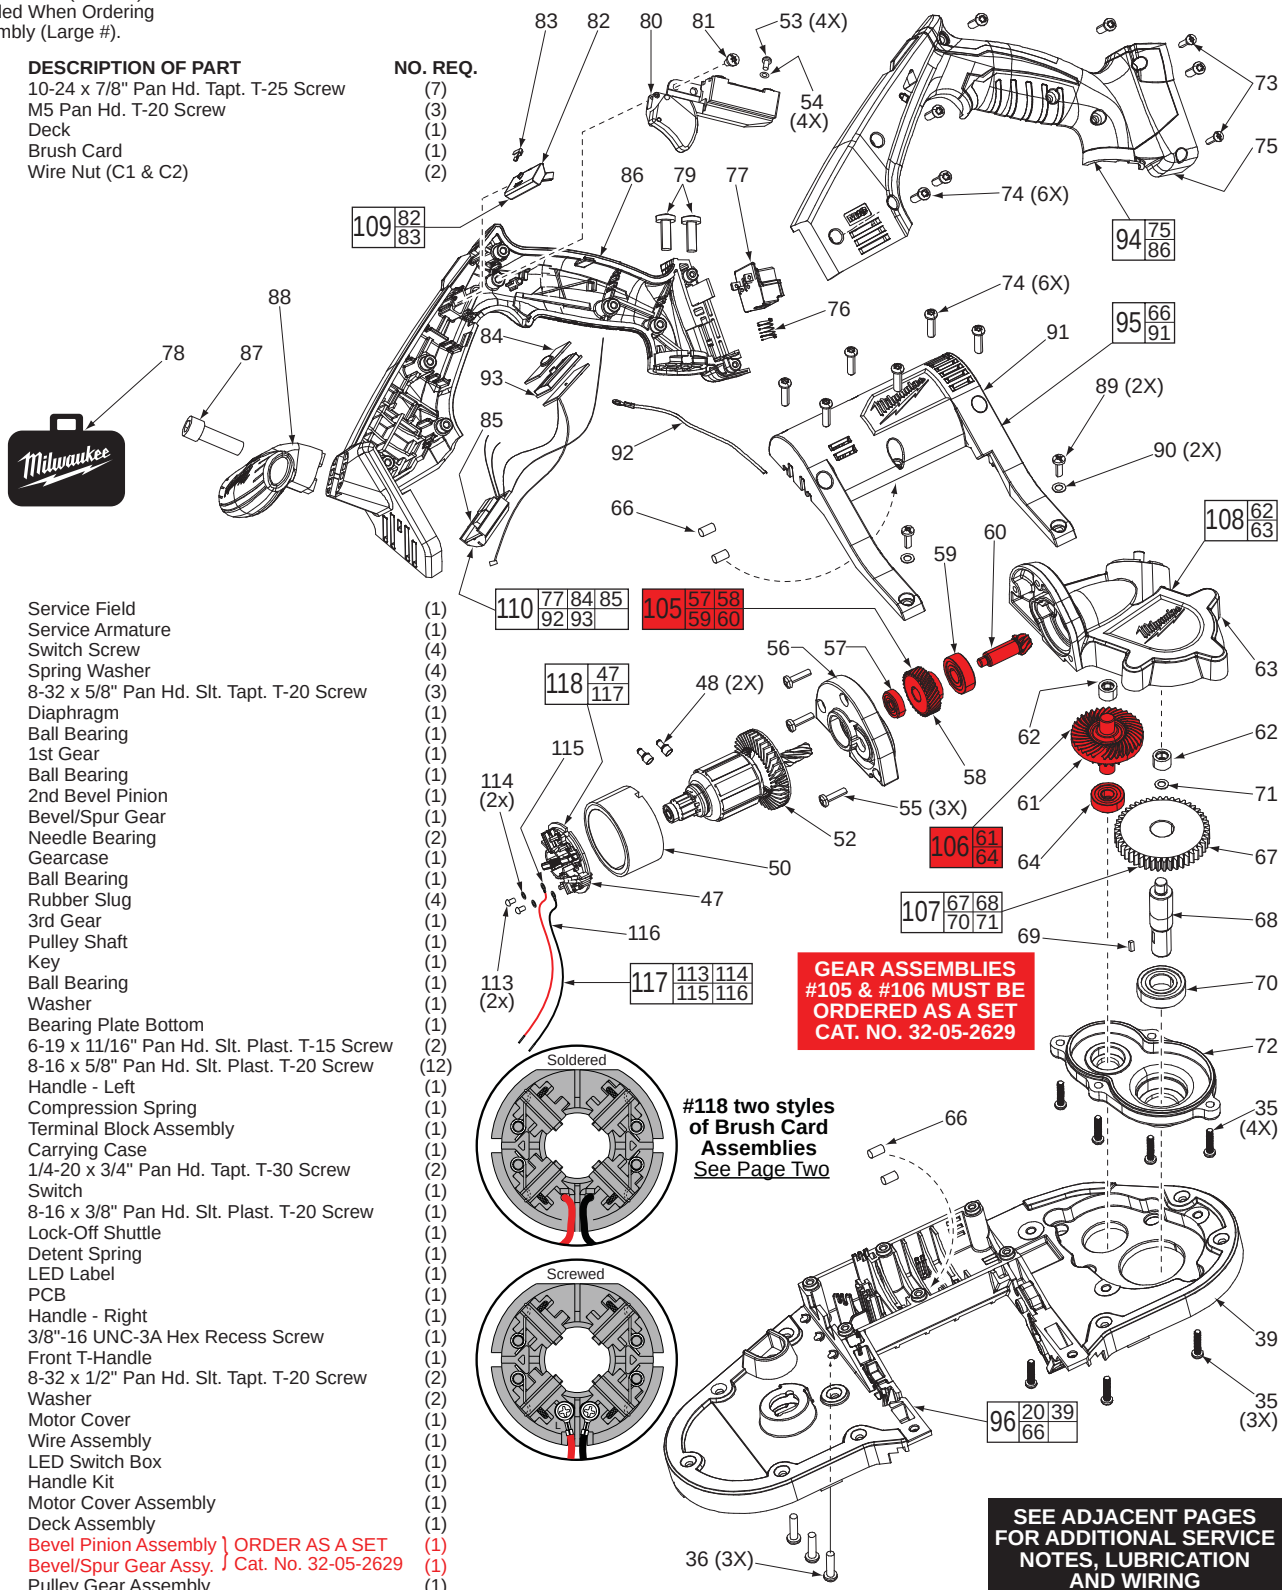

FIG. NOTE:

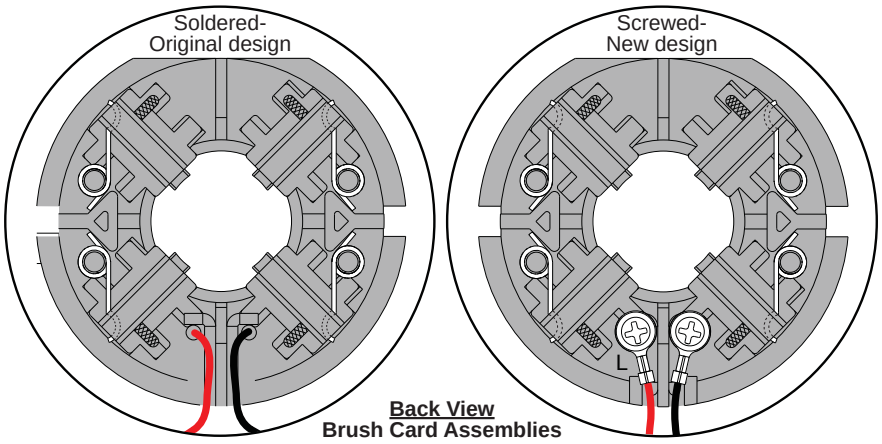
64,70 Orient the Ball Bearings so the seal faces the gears.

68 Apply approximately .1g Loctite® C5-A Copper Anti-Seize (or equivalent) to bottom portion of Pulley Shaft that fits into Rear Pulley (4).

MILWAUKEE ELECTRIC TOOL CORPORATION
13135 W. LISBON RD., BROOKFIELD, WI 53005



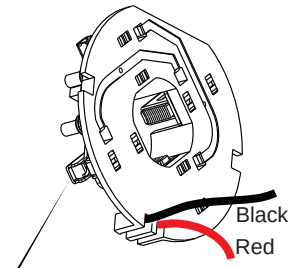
Back View
Brush Card Assemblies

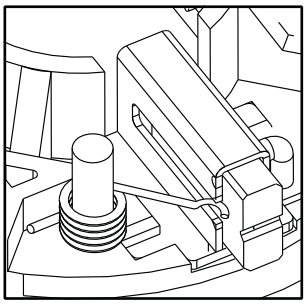
NOTE:
There are two Brush Card Assembly designs.

On the original brush card design the red and black wires that go to the switch are soldered on the brush card.

On the new brush card design the red and black wires that go to the switch are secured to the brush card with spring washers and screws.

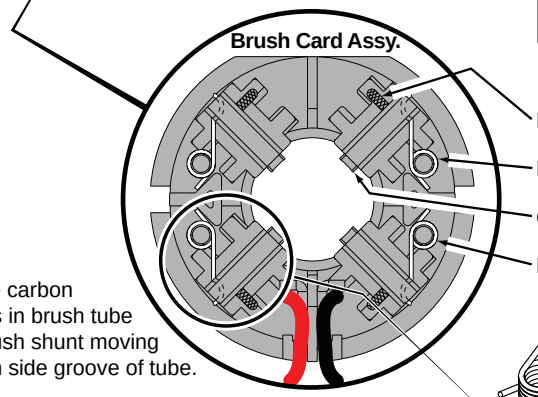
The new brush card design is **directly interchangeable** in tools that have the old brush card design.





NOTE:
As an aid to prevent damage to the armature commutator or the brushes when removing and installing the armature assembly, it is recommended to pull the carbon brushes partially back into the brush tube. The carbon brushes will be held in place with the brush spring moving from the rear of the brush to the side of the brush.

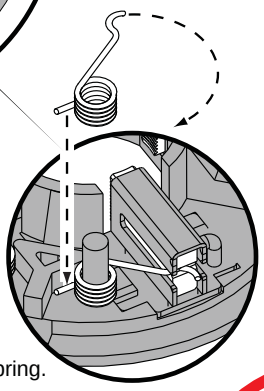
In the unlikely event that the spring pops off follow the instructions below.

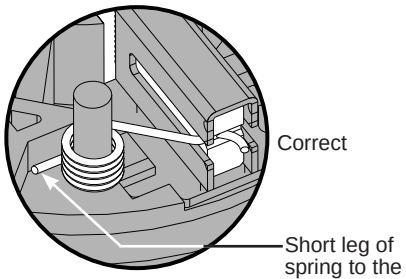


Be sure carbon brush is in brush tube with brush shunt moving freely in side groove of tube.

Place brush spring over post with short leg positioned downward as shown. Be sure spring is completely down with short leg trapped against 'Y' shaped wall on brush card.

While holding spring in place, bring the long leg of spring over the brush tube and through rear opening of tube. Position rounded hook of spring in groove on back of carbon brush. Be sure to check for free movement between carbon brush, brush shunt and brush spring.





★= **Part number change** from previous service parts list.
